Providers may use software programs not listed here for distance education with prior approval of the System Office. In order to receive approval, the software must have the ability to track time, to produce a detailed time-stamped login/logout report for each student, and to log students out after a maximum of 15 minutes of inactivity.

Please complete and submit the **Clock Time Program Approval Application**. This form can also be found as a Word document on the NCTitle2.org *Distance Education* webpage.
