College and Career Readiness State-Wide Call

Adult Education State Office Team

August 27, 2025

Agenda

- 1. Need-to-know Brief**
- 2. Performance Accountability**
- 3. AEFLA Week Celebration**
- 4. Ability to Benefit Workgroup**
- 5. HSE Records Transfer**
- 6. PD Updates**
- 7. Questions and Answers**

Need-to-Know Brief

- Title II Budget Training

August 27, 2025

10:00 AM via Zoom

- 2025-26 Moodle Portal

Continuous Monitoring

Due October 1, 2025

Time and Effort Reports

Retroactive to July 1, 2025

Reports should cover July 1-August 31, 2025.

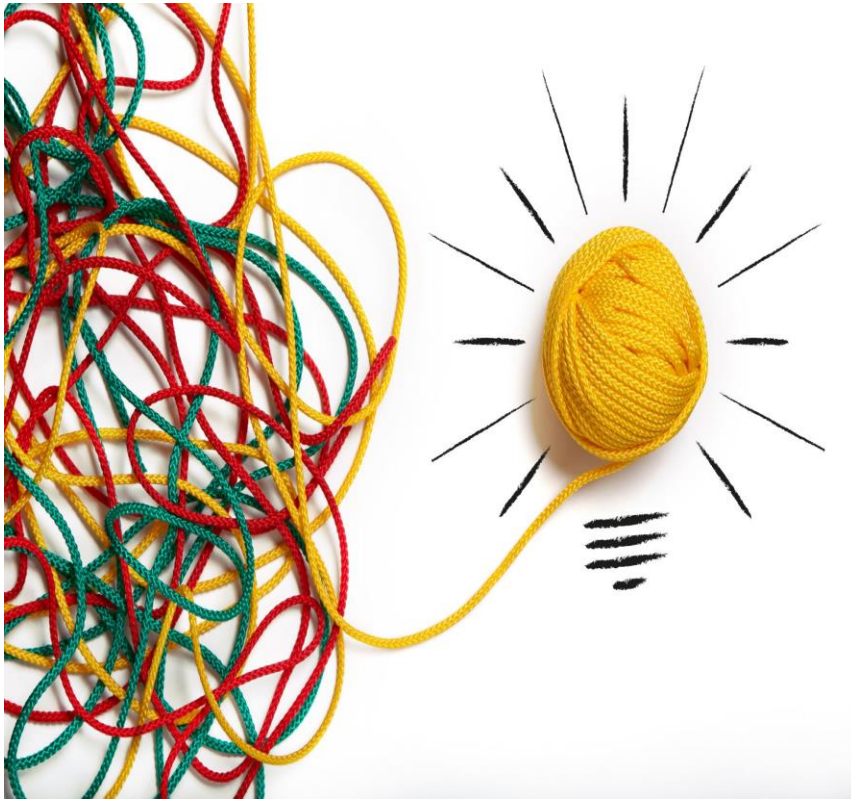

Reallocation Budget

- This allocation is in addition to your 231 AEFLA grant allocations.

Regular Allocations

- The 231 AEFLA, 225 Corrections Education, and 243 IELCE allocations were approved during the August 15, 2025, State Board of Community Colleges meeting.

Systems & Performance Accountability Updates - Final 2024-25 Statewide Data

Enrollment is up significantly this year, with **64,892 students served**—an increase of 3,480 over last year, and well above our pre-COVID enrollment of 54,496.

We achieved the **highest MSG rate** in state history, surpassing our target of 43.6% with a final rate of **50.2%**!

MSGs earned through **IETs and Career Pathways** more than **doubled**, reaching **1,907**—a 1,027 increase from 2023–24.

Postsecondary enrollment MSGs also grew, rising to **1,371**, up 79 from the previous year.

IMPORTANT! Post-Exit Indicators

Post-Exit Measures for 2025-2026 Program Year

Employment (2nd Qtr Exit): 41.5%

Employment (4th Qtr Exit): 41.5%

Median Earnings: \$5,100

Credential Attainment Rate: 31.5%

Measurable Skill Gains: 44.0%

Starting for the 2024–25 program year, OCTAE will evaluate state performance for two key measures in WIOA Title II:

- Employment Rate (2nd quarter after students exit)
- Measurable Skill Gains (MSG)

If a WIOA program scores below 50% on either of these measures for the first time, the state will be required to:

- Receive technical assistance, and
- Create a performance improvement plan.

If the same measure falls below 50% again the following year, the state will face financial penalties.

Provider Responsibility – Post-Exit Indicators

Because more post-exit measures will be added in future years, it's critical that all providers collect and record SSN or ITIN numbers for every participant. North Carolina uses data matching with NC Commerce to calculate post-exit measures.

Last year, only 57% of participants had a SSN on file.

Without these numbers, we cannot capture full employment outcomes.

Surveys will be added to data matching for PY 25-26.
Training coming soon!

AEFLA WEEK

HSE Office Update – Data Migration Request (DMR)

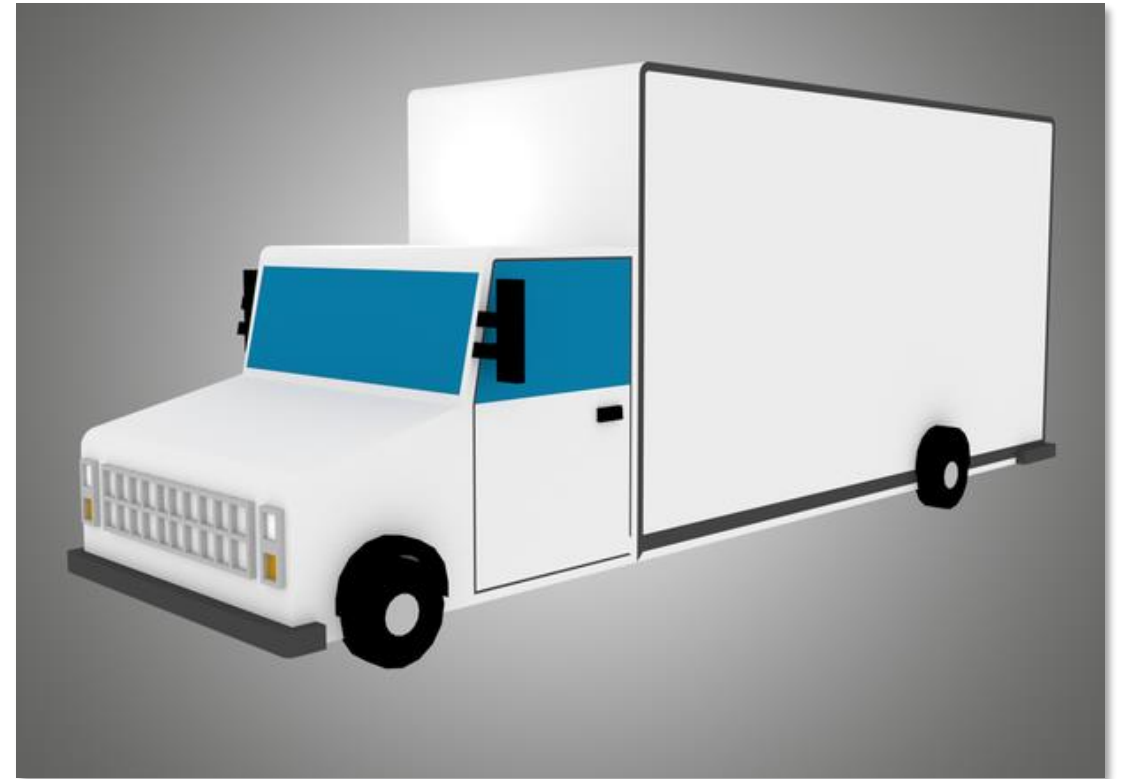

ThePhoto by PhotoAuthor is licensed under CCYYSA.

Data Migration Request (DMR)

- **Purpose:** To retrieve all pre-2002 GED records from colleges so that they may be digitized and archived with DiplomaSender
- **Status:** The HSE Office is meeting with DS tomorrow to finalize pickup routes, as well as to determine next steps for colleges with outstanding records.
- **What's Next:** Listen out for your assigned site to drop off records!
